

5. Feb. 20

Tuesday

We are the parent of a Differently abled Kid
NIVY - who has been diagnosed with Autism
and ADHD.

We proudly say this because GOD has chosen
us believing that we would be able to take
care this precious gift, the way he likes it to
be preserved & brought up and we are just
trying to live up to his expectations.

While we were on our job of rendering the
assignments given by God, relentlessly trying
hard to find all ways & means to bring
Nivy up to, lead a life on his own,
without any dependence, amidst all disparity,
Rejections, challenges, misconception etc....
posed by this Society.

GOD being kind to us, not wanted us handle
it all alone - he left our kid's, one hand
in our palm and took his otherhand and
gave it to the abled safe hands of
Mr. Ramalingam

In our Journey with Nivy last 10 Yrs,
we experienced coming across various -
Occupational Centres, Training Centres, Schools,
Various techniques, and answering
various questions about him.

Mr. Ramalingam of Maruti Seva has
approached him differently, with his
immense experience in his field he
started saying about our child on first
instance. instead of, asking us and knowing
from us, about our child.

His template of teaching techniques
has brought drastic changes in our
child's learning curve and behaviour.

Maruti Seva is known for, its transparency
with Parents and for conducting feedback
sessions on regular cycles, having the
parents and child together, Maintaining
history of Child's development from
time to time.

Their teaching methods vary from child to child, based on their abilities and for the same child, if any technique doesn't work, they are open to try and change with another approach.

Mr. Ramalingam and his team, is committed to take equal responsibility on a child's growth,

If the parents are read to, fulfill their responsibilities and come forward for seeking their support.

We feel blessed & thankful to have known this institution & we wish MarutiSera to grow leaps and bounds, continuing to make changes in the life of Parents like us by helping our children to Grow & Nourish, as they rightfully can wish for, as a Human Being.

With Heartfelt Gratitude,

Balamurugan &

Uma.
